

# 2J UNIVERSITY CLASSES OF 2026

## Electronically Commutated Motor (ECM) and Inverter Training

The purpose of this class is to de-mystify what an ECM motor is, how they are used, and the history of what led up to their adoption. This session is designed to help HVAC contractors stay up to date, covering the latest product features, benefits and applications, ensuring that you maximize efficiency and customer satisfaction.

**Wednesday, March 18, 2026**

**8 a.m. - 10 a.m.**

**2J Supply - Toledo**

**FREE**

**2hrs OH CEUs**

**Light Breakfast**
